

Registration for the working group EcoReliability reliable and sustainable electronics

The lecture event and the entire organization are financed by the **annual participation fee of € 995** per company/organization and location. The participation fees are **VAT-free** in accordance with § 4 No. 22 UStG and include conference documents, lunch and refreshments during breaks. Participants in the Working Group on Legally Compliant Environmental Management, also organized by Fraunhofer IZM, receive a discount of €100 per location.

You can register for the working group at any time to take part from the next meeting onwards. Participation in individual meetings is possible for 500 € each (or 250 € for half-day meetings). If you then decide to participate on a permanent basis, we will offset this amount against the annual fee. Please only use this form to register, which you can send to us by [e-mail](#), fax (030 46403-211) or post.

You can cancel your annual participation in the working group at any time at the end of the year without giving reasons. If we have not received any notice of termination from you by the end of the year, your participation will be extended for a further year. Please use the cancellation form on the working group website.
